RESPONSE TO OFFICE ACTION

RE: US Patent Application 10/594,843
"Human Glycoprotein Hormone Superagonists and Uses Thereof"

To Whom It May Concern:

In response to the USPTO request for a sequence listing, it is our contention that the sequence listing is not needed, per the enclosed Preliminary Amendment, which cancels claims that refer to a specific amino acid position.

Enclosed is Cover Form 1390, the Preliminary Amendment, the PCT Application in which the claims are listed, the original Notice to Comply, and a check in the amount of \$495.00.

If you require any additional information or need clarification on any submitted data, please contact Dr. Mariusz Szkudlinski at 301-838-1937 or by email at: mszkudlinski@trophogen.com, or me at 301-838-1935 x101, kdugard@trophogen.com.

Sincerely,

A handwritten signature in black ink, appearing to read "Karen Dugard".

Karen Dugard
